Listen Vision Academy

**Intensive & Affordable 1-on-1
Classes**

Listen Vision Academy
is the smart and affordable way to learn
**Audio Engineering, Music Production, Video
Editing, DJ'ing and Beat Making.** Why break
the bank and spend years learning Digital
Audio or Video when you can take one-on-

Learn to Engineer:

1-ON-1 with LV Engineers

**Recording *Mixing *Plug-Ins *Multi-*

Audio or video, when you can take one-on-one, intensive and abbreviated classes with experienced professionals who are full-time engineers, DJ's & Video Directors at Listen Vision Studios, DC's largest and oldest recording studio.

Don't get lost in the crowd! You'll benefit from our private, hands-on approach to learning digital media, instruments and equipment. Interested in Video and Film Making? Learn shooting and editing in **private, one-on-one sessions** with Listen Vision's Video Director. Our Instructors aren't just technology geeks, they are industry professionals who have witnessed first-hand the benefits of catering our curriculum to the student and their level when they enter LV Academy. Our curriculum is **Digidesign© Certified** and based on the most essential knowledge you will need to be able to take and pass the Pro Tools Certification© test and **obtain a career in the digital Audio/Video field.**

Whether a **high school student** who is looking to explore their curiosity and a potential career, or an **adult** who has always had an interest or passion for music or video and is looking to pursue a new path or just a new hobby... Listen Vision Academy is the best of everything:
Affordable, Abbreviated and One-on-One.
